PAUL H KUSUDA

3-3-43

Before we're all gone and blown into the midwest and other climes, we'd like to have you sit in with some of us who are still left to pool our year's experience in Manzanar, exchange our observations and aspirations for ourselves, the nisei and try to see what's ahead for us all.

In short a catch all evening with Fred Fertig and some others to help make the discussion a bit coherent. It's Saturday evening, 6:30 pm at College Hall (Block 11-20)
